

RIYAZ AHMAD J

Frontend Engineer · React.js · TypeScript · React Native

riyazofficial.222001@gmail.com | +91 63824 37481 | Salem, TN | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend Engineer with 2+ years of hands-on experience building fast, scalable, and user-friendly web and mobile applications using React.js, TypeScript, and React Native. Shipped production products used by 2,000+ active users, optimized Lighthouse scores from 62 to 92, and reduced component re-renders by 40% through memoization and Redux Toolkit. Experienced in responsive UI design, RESTful API integration, state management, Core Web Vitals optimization, and Agile/Scrum workflows.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, React Hooks, React Native, React Native Web, Next.js (SSR/SSG), Tailwind CSS, SCSS, Bootstrap

State Management & Data: Redux Toolkit, Zustand, Context API, TanStack Query, Axios, REST APIs

Performance & Quality: Core Web Vitals (LCP/CLS/INP), Code Splitting, Lazy Loading, Memoization, WCAG 2.1 AA, Jest, React Testing Library

Tools & DevOps: Vite, Git, GitHub Actions CI/CD, Vercel, Figma, Sentry, Chrome Extension API, Performance Profiling

PROFESSIONAL EXPERIENCE

Associate Software Engineer · Maadhyamik Technologies, Salem, TN

Jan 2024 – Present

- Sole frontend engineer for 3 cross-platform Tamil word-puzzle games built in React.js + React Native Web + TypeScript — single codebase delivering full feature parity across web and mobile platforms.
- Reduced component re-renders by 40% via memoization strategies, normalized Redux Toolkit store architecture, and custom hook abstractions; debugged production sync-lock and stale-closure issues to restore live gameplay stability.
- Built and shipped Varta Keyboard Chrome Extension — a phonemic transliteration engine supporting 5+ Indian languages with <50ms DOM latency via debounced event handling — growing to 2,000+ active users and a 4.5★ Chrome Web Store rating.
- Integrated RESTful APIs using a centralized Axios HTTP client with automatic retry logic and request/response interceptors, cutting production API failure rate by 30%.
- Achieved 98% file upload success rate under low-bandwidth conditions by integrating TUS resumable upload protocol into the CMS media pipeline.
- Implemented responsive, WCAG 2.1 AA-compliant UIs across all products; Figma-to-production handoffs averaged <2 revision cycles, reducing design review overhead by ~50% within Agile sprints.
- Authored 60+ unit and integration tests with Jest + React Testing Library covering game-state hooks and async flows, achieving 75%+ code coverage and preventing pre-release regressions.

PROJECTS

Lexifyd — Tamil Word-Puzzle Platform React Native Web · TypeScript · Firebase · Vite · Redux Toolkit

2026

– Present

- Improved Lighthouse performance score from 62 to 92 via route-level code splitting, lazy loading, and component-level memoization — optimizing Core Web Vitals (LCP, CLS, INP) for a production-grade web app.
- Designed real-time score synchronization with offline queue management via Firebase Firestore, ensuring seamless gameplay under intermittent connectivity.
- Implemented JWT-based session handling via Firebase Auth with secure token refresh logic and protected route architecture.

Varta Keyboard — Chrome Extension Chrome Extension API · JavaScript · TypeScript

2025

- Built a phonemic transliteration engine supporting 5+ Indian languages with <50ms DOM latency via debounced event handling across all active text fields.
- Grew to 2,000+ active users with a 4.5★ Chrome Web Store rating through iterative UX improvements, performance profiling, and cross-browser compatibility testing.

EDUCATION

Master of Computer Applications (MCA) · Periyar University, Salem

Jun 2022 – May 2024

Bachelor of Computer Applications (BCA) · Mahendra Arts and Science College, Salem

Jun 2018 – May 2021
